

INTEGRATED SOLUTIONS FOR K12 ORGANIZATIONS

Today's school boards and districts need a comprehensive tool that is powerful enough to manage, financial and payroll transactions, employees, and student data or entire classrooms. At the same time, employees, parents and teachers are looking for appropriate methods to connect. Altus Dynamics EDU was built with all of this flexibility in mind, and packaged in the most user-friendly way possible.

With Altus Dynamics EDU you get the ability to focus, prioritize and apply your expertise for more effective management of your board or district. Altus Dynamics EDU is a Microsoft based integrated suite of K-12 solutions allowing you to reduce the number of platforms you need to support through integration with Finance, HR & Payroll, Student Administration and Web Portals.

Altus Dynamics EDU Solution

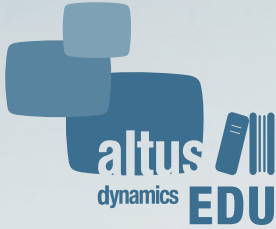

BENEFITS YOU CAN EXPECT

- Quick analysis of all aspects of your school district or board, and improved decision making
- Improved insight from preset data views, tailored to your employees' role
- Flexibility to meet your reporting requirements
- An adaptable solution that grows with your organization
- Connection with your employees, students, teachers and parents through the browser-based Portals
- An integrated system that saves time by reducing workload and duplication of data
- Better tools to manage your employees with ease and intelligence
- Centralization of all of your student and school information
- Incorporation of all your paper and other electronic files
- Investment protection through a stable Microsoft platform

"The software challenges that lie ahead are less about getting access to the information people need and more about making sense of the information they have—giving them the ability to focus, prioritize and apply their expertise, visualize and understand key data."

-- **Bill Gates**, Chairman and Chief Software Architect, Microsoft Corporation

Altus Dynamics EDU is flexible enough to accommodate future requirements in your Finance, Human Resources and Payroll, Student Administration or IT departments. It's the only application on the market that addresses all your core business needs with true integration.

FINANCE

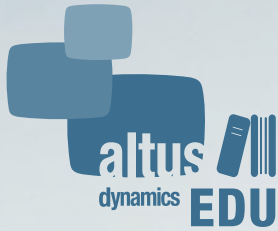

Finance staff need to spot trends and gain insight into your financial business activities. They need flexibility to respond to ongoing provincial reporting demands and a flexible interface for their team and school staff. With Altus Dynamics EDU, the finance team will gain flexibility, ease of use and accurate reporting capabilities to provide ad hoc analysis without engaging IT staff. You'll also be able to:

- Identify and respond quickly to new reporting requirements
- Gain transparency by easily drilling down to details like purchasing, payroll and budgeting data
- Track budgets, and monitor against purchasing and commitments
- Improve management of tangible capital asset maintenance, and the overall handling of your asset's reporting requirements
- Flexible interface for staff to assemble their own screens that are meaningful to them
- Access all documents fast, without taking time to look for a paper copy

HUMAN RESOURCES AND PAYROLL

Your employees are the foundation of your board. Payroll staff needs flexibility into processing payroll and better visibility into employee data. With Altus Dynamics EDU, your employees can gain the freedom to generate online paystubs, access online self-service portals, create unlimited customized reports, and seamlessly integrate all information to financials. Here is what else you can expect to gain:

- Freedom from the 'payroll marathon'
- Significant reduction of payroll hours
- Simplification of your payroll workflow
- Accurate on-demand reports to your management team
- Replacement of Excel spreadsheets and duplicate data entries, with unlimited reporting at your fingertips
- An intelligent and intuitive system that allows you to spend less time correcting and more time managing efficiencies, controlling labour-related costs and improving labour productivity

“With Altus Dynamics EDU accounting data is easy to read, budgets are easier to monitor and users’ understanding of financial data is increasing across the organization.”

-- **Cheri Carter**, Senior Manager of Finance,
Avon Maitland District School Board

“The user-friendly interface is the biggest immediate benefit we have seen.”

-- **Shesh Maharaj**, Superintendent,
Waterloo Catholic District School Board

“Budgeting is so much easier - we get our weekends back!”

-- **Nancy Becker**, Finance Manager,
Huron Perth Catholic District School Board

STUDENT ADMINISTRATION

Altus Dynamics EDU addresses the needs of a district and school for student information. Altus Dynamics EDU - Backpack helps administration staff to efficiently manage all of your student and school information in a central place, as well as provide you with:

- Easy-to-use screens for Enrolment, Registration and Master Scheduling
- Intuitive class and course management
- Secure social networking tools that bring families together to increase student achievement
- Better transparency and accountability, with email updates and notifications
- Powerful school and district reports about grades, attendance, class and school performance

“We give you the best of both worlds – the security of a proven and stable Microsoft platform along with meaningful school district and board functionality.” -- **James Faw**, VP Product Innovation, Altus Dynamics

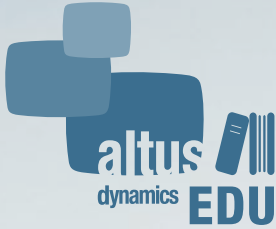

INFORMATION TECHNOLOGY

IT departments have the not-so-simple task of keeping critical, and often diverse computer systems up and running. To make life easier, Altus Dynamics EDU was built on the very robust Microsoft Dynamics platform. Microsoft invests billions of dollars every year into the Dynamics platform, providing continuous solution improvements, a product roadmap and compatibility to other core Microsoft solutions like SharePoint, Office, and SQL.

System Management

- Set up and define activities within the database
- Leverage unified logins
- Assign customized menus and windows to specific users
- As an administrator, you can control and define access rights for subsidiaries
- SQL performance helps your organization manage any data, any place, any time
- Integrates with SharePoint to provide comprehensive content management
- Customizable Accounting, HR, Payroll and Business Management functionality
